### Online Education

1. Does all programs/courses were completed on time.	Yes
2. Measures taken to complete the syllabus of courses and programs.	<p>The academic year 2021-22, spanning the months of June 2021 till April 2022 tested the newly learned procedures and protocols of online instructions further. As a continuation of the online teaching procedures mandated by the authorities due to the Covid pandemic, all the members in college delivered content online. The delivery and teaching methods were rigorously tested on multiple fronts - technical, academic, and relational - through the novel methods of assessment designed by the faculty. The online teaching/learning platforms were procured and optimised through subscribing to ZOOM and Google Meet, while the Google Classroom by G-Suite for Education, was implemented as a standard Learning Management System (LMS), which streamlined the delivery of academic material and the assignments through effective use of cloud drive, whereby the recording facility, forms, assignments and plagiarism checks were stored in one central location for each faculty member. As the norms for online instructions were changed and hybrid mode of instructions were permitted from January 2022, teaching as well as practicals /tutorials were conducted in dual mode to benefit students who could physically attend college and also those who couldn't.</p> <p>Online teaching commenced on 14th of June, 2021. The stipulated ninety days of teaching, in each of the semester were met with by extending the odd semester till the 1st of November 2021. Several of the faculty members continued to conduct online teaching during the winter break, especially for the post-graduate courses for continuity, and syllabus coverage, and compensation of educational loss if any. The even semester commenced on the 18th of November 2021 and continued till the 30th of April 2022. The schedule of lectures was modified so as not to cause online viewing fatigue. A mandatory break of 10 minutes was scheduled between every lecture, which extended the total working schedule, but was readily accepted by the teachers as it was the humane thing to do. Lectures and lab sessions were recorded and made available to all students.</p> <p>It was ensured that the mandatory syllabus for every course was covered and satisfactorily completed by every course teacher. The practical component specifically for science courses and also for courses conducted under social sciences, course teachers were taught or discussed through the use of curated online videos, Google jamboards for creative interactions, as well as on-camera demonstrations of various laboratory techniques, with all due safety measures being taught as well. Virtual field visits were conducted for courses which have a fieldwork component. Peer to peer engagement, one of the primary concerns in the online scenario, was facilitated through the use of breakout room facilities available on Zoom and during the hybrid teaching phase, student interaction was facilitated through active classroom interaction. The understanding of the learner was assessed through a variety of assessments ranging from quizzes to MCQs and assignments. Through judicious use of online teaching tools coupled with face to face teaching, time our teachers have achieved comprehensive syllabus coverage as is evidenced from the normal distribution of scores.</p>
3. The period of delay in completion of syllabus (in months).	0
4. The period of delay in conducting exams (in months).	0
